"The Coin Machines Merry-Go-Round"

By Bill Gersh

PRIDE IN AN INDUSTRY

We're proud of the men in this industry. We can name dozens of them who are among the hardest, and yet most modest, workers in their communities, and are engaged in every outstanding community effort. We know a great many others (and our Honorable Mention Awards have named them from time to time) who have gone all out, away out of their way, to help the men and women of the armed services, the children and the needy in their communities and dozens of charities. We're proud of the men in this industry.

We know, as the 5th War Loan Drive comes to an end on July 8th, while the great and long awaited invasion is going forward, that you and all other coinmen will actually be in it - investing all you possibly can. And not only investing what you can yourself, but urging your friends, neighbors and your location owners, too, to buy and buy and buy more War Bonds - investing in God's country and its future. We're proud of the men in this industry.

The equipment of this business is unequalled for helping to maintain and to build morale - both for civilians and for the armed forces. The large number of games, phonos, etc., etc., that have already been donated by coinmen for the benefit of the armed forces should be inscribed in permanent golden letters for all this nation to remember. That's another reason why we're proud of the men in this industry.

Coinmen haven't made demands. They've continued on, and even progressed, during this tragic war period. They're paying higher and ever higher taxes and, in most cases, cheerfully, too. They haven't yowled and yelped to Washington when one restriction after another was enacted against them. They may have become just a little bit toughened to the fact that the editor of their home town paper, who has a drink and a bite with them on occasion and calls on them for favors every now and then - slams hell out of them when he gets a "slot machine" press release. But most coinmen have learned to turn the other cheek. That's why we're proud of the men in this industry.

There are hundreds of men in this business with sons and daughters in the armed forces. Men that go along, day after day, and keep a lot of heartache and tears to themselves. Who will have a drink with you, and smile and laugh and act the part of "regular" people. Who will take a beating from publicity seeking politicos and blue nosed crusaders and not even mention the fact that they've done more and given more (and are continually doing and giving more) than those yellow-sheet publicity seekers. The kind of people you and I simply must call "real" people. That's why we're proud of the men in this industry.

Here is an industry that offers the finest kind of relaxing entertainment, economically. That vends music the people want, for only a nickel. That offers automatic merchandising that is unequalled for its job. That brings many a service machine practically to the doorstep of Mr. John Q. Public, and yet asks very little in return. These coinmen, who are actually in the business of tomorrow, an industry that is being carefully studied by outstanding business men, a business that has already won the support of many leading financiers, these men are modest and unassuming and, believe me, even a bit backward to recognize the fact that they are considered a truly important and outstanding division of America's entertainment and merchandising industries. We're proud of the men in this industry.

Here are men who allied themselves with other fields and brought them back to life and never asked for even a "thank you" in return. Remember when the record business fell down far below street level? When it was no longer even considered an industry? Who, I ask you, picked that entire industry up out of the mire of despair and gave it new hope and new life and a new optimistic outlook? And the premiums field? Remember when they were so low that they were almost non-existent? And who, but the men in this industry, with salesboards, diggers and sportlands, showed them a new panacea and a new opportunity to get going all over again? And a great many other allied industries, too, were picked right up and shoved to the top by the men in this business. And many of these have today slapped back at coinmen, but hard. Yet we've never heard this industry bellow about "bad breaks". That's why we're proud of the men in this industry.

"The Coin Machines Merry-Go-Round"

As many of our subscribers know - it has been our somewhat dubious honor to have been in extremely close contact with dozens of other fields as an advertising and merchandising counsellor. Then why did we pick out this coin operated machines field for our efforts? Because, over the years, we've come to know that the men in this business are finer sports, grander people, keener business men and simply just "right guys". And, we like "right guys". Because in this business long, long ago, someone established a two-way standard - either you were "right" or you were "wrong". And the great, great majority are "right" - believe me. And that's another reason why we're proud of the men in this industry.

We've sat in conferences with men in various industries and we've listened to their plans. We've heard New York industrialists plan and scheme for months and months before they would move as far away from their operating base as Philadelphia, and that's only an hour and a half from New York. We've sat in Chicago conferences and heard men plan and scheme for weeks on moving into the Milwaukee market - and that's only an hour's ride away. Yet, we've met what is known in this coin machines industry as "smaller operators", who were situated in small midwest towns and heard that a "deal" had opened over 1,000 miles away in the deep south - and, by golly, without hesitating a minute - they were on their way and equipment was following them. There's something about this business. Its youth and pep and optimism and maybe even its devil-may-care mood that we're proud of, too.

And coinmen are fighters. They don't quit easily. They're not scared off quickly by a bad break. They fight their way out - and somehow they always come out on top. In the fight game, they call it "heart". But whatever it's called and however it's expressed, it's typical of the men in this fascinating coin machines business. And that's why we're proud of them.

Just think back a bit. Remember after Pearl Harbor, when most other industries quit? Remember how pessimism ruled the day? Well, your coin operated machines industry is still here - going ahead - creating - unafraid - optimistic - grand in its belief of a greater tomorrow. Aren't you, too, proud of the men in this business?

Sure, you may have had a little tiff now and then. Sure, you may be a bit upset about a tied-up deposit, or a poor machine, or rotten service. But, when you boil it all down, as a general average, haven't the guys in this business been "regular"? And have't you dozens upon dozens of friends and guys you know are 100% "right"? Now, after all's said and done, aren't you, too, proud of the men who comprise this speedy, optimistic, fightingest industry you've ever known?

Then let's help shoot this industry away over the top in this 5th War Loan Drive. The recognition, the praise, the respect, this industry can gain from such effort is the best "public relations" you can have. Write prominently and proudly clear across your 5th War Loan application blank - "member of America's coin machines industry" - you'll be more proud than ever before of the men who make this such a grand business.

WILL PEOPLE HAVE MONEY AFTER THE WAR?

One of the statements heard regularly thruout the country is that there will probably be a depression immediately after the war is over and the public will once again be caught short. But others agree that if there are labor layoff periods due to the time required for reconversion to domestic production by the manufacturers that such period will be of short duration and that the workers will be back in greater force than ever.

Pessimism is a good thing, to a certain extent. It tempers optimism with just enough sufficiency so that there is not too great an optimistic urge on the part of intelligent business men.

The average man believes that when the war is over the public will spend all that they have earned and saved and that within a very short period they will once again be entirely dependant upon what work they can obtain.

To offset this believe comes the statements of Dr. E. A. Golensweiser, Research Director of the Federal Reserve System who told over 1,000 members of the Illinois Bankers Association at their 54th annual convention that bank deposits are liable to reach between 125 and 150 billion dollars by the time the war is over.

This will be the greatest deposits figure in all the history of this nation. It will mean that the public will have saved more, regardless of the extremely high taxation now in progress, than during any other period in the history of this country. It will mean that this money can either become an inflationary scourge or a definite safeguard against depression.

"The Coin Machines Merry-Go-Round"

It is the belief of The Cash Box that the latter course will prevail. It is also the belief of The Cash Box that many who have saved in this gigantic deposit pool now existing in the nation's savings banks will use this money to enter into businesses of their own when the war is over.

There is no doubt that there will be more and greater suburban areas created after the war by these savers building homes away from crowded cities than ever before in the history of this nation. And these suburbs will become new locations for coin operated equipment, as was sometime ago reported by The Cash Box.

In these suburbs, that are bound to spring up everywhere in the country, will be created many new and small businesses. These, in addition to the large chains and others who have already made advance realty purchases to safeguard interests, will open a new and greater path of locations for this industry.

Also important will be the fact that among these millions of savers will be people who will want to enter into this industry. There is no doubt that a great many will become part and parcel of this business. Their investments will be more assured in this industry after the war than at any other time in the history of this business. The very fact that so much savings have accumulated in the nation's banks makes the greater growth of this business a surety.

And likewise, the very fact that the public will continue to have money after the war, because of these savings and also because of the fact that American industry is due to enter into its greatest boom era, will create better and more profitable action for coin operated equipment than ever before.

The members of this industry can look forward to continued prosperity. This is one certainty that dovetails with the economics of all these surrounding business factors.

Those who have been rather pessimistic in their belief regarding the public continuing to remain prosperous after the war can rely on the fact that this accumulation of 125 to 150 billions of dollars in bank deposits as savings of Americans is certain to prove, in great part, risk investment money for the opening of much new business everywhere in the nation.

There is no doubt but what this industry faces its most prosperous era when this war ends. The post-war period will seem to have been especially created for this business. The amusement, merchandising and service divisions of this coin operated machines industry most definitely tie in with the future of this nation. They, even tho they are as yet in their very embryonic stage, will rise to the occasion as greater developments come about.

The public will have the money to invest in this industry. They will have the money to continue to enjoy the equipment of this business. This trade is definitely on its way to its greatest growth because of these facts.

Dr. Golenweiser's statements before the Illinois Bankers Association are sufficient proof in themselves of the fact that this business must go on ahead to ever greater growth because of the fact that the public itself is more prosperous than ever before in American history. A prosperous public always did, and always will, mean a prosperous industry.

HONORABLE MENTION AWARD

To John L. Jones of Jones Sales Company, Bristol, Va.-Tenn., for the high type of business effort he has put forth which has won him the praise and respect of all who have dealt with him. And also for the fact that he has continued to give of his time and effort to help raise the level of this industry to the highest possible plane.

"Talking Out Loud"

TAX PLAGUE HITS AGAIN

CAMBRIDGE, MASS. & TERRE HAUTE, IND. MUSIC MEN FACE HIGHER LICENSE FEES

In two widely scattered cities this past week, coinmen once again felt the brunt of the tax plague from city officials seeking more and still more revenue. The prominence of the automatic phono played its part in both these towns and in each instance revenue seekers asked that higher license fees be placed on them.

It is believed that Terre Haute, Ind., is feeling the effects of the higher phono license fee ($50) that went into effect in Chicago since it is so close to that city. There is no such reason in the case of Cambridge, Mass., yet this little city's coinmen are faced with a similar demand for a higher license fee.

Once again The Cash Box urges the trade to adopt its suggestion that a National Tax Council be created by the leaders of this industry who should immediately arrange a meet for such purpose so as to protect this business from the spread of excessive and inequitable taxation, as well as create and have ready an experienced body of men completely prepared with all necessary data and legal advice to help coinmen in smaller cities like Cambridge, Mass., and Terre Haute, Ind., when tax problems arise.

CAMBRIDGE, MASS.

Cy Jacobs of Interstate Music Co., sends in a clipping from The Cambridge Chronicle-Sun referring to the lengthy report submitted to the City Council by City Manager John B. Atkinson on the revenue derived by this city from the issuance of various licenses. A part of this report, for obtaining further revenue, refers to coin operated equipment. It reads as follows:

"I recommend that juke boxes, pin ball machines, machines which take pictures upon insertion of a coin, and all types of amusement machines for which an operation charge is made be licensed and that the fee for this license be not less than ten dollars ($10.00) and not more than twenty-five dollars ($25.00) per machine, plus an additional charge of not less than two dollars ($2.00) for each additional outlet wherein a coin is inserted to operate these machines.

"These machines are extremely profitable and pay for their cost of production several times over in the course of a year, and the fee charged against them is exceedingly small.

"Practically all these machines are owned by non-residents and are leased to various stores, clubs, etc., which operate them on a percentage basis. I believe a fee should be assessed against each machine rather than a flat fee which permits a storekeeper to maintain a certain number of these machines. If this fee is not assessed against these machines the Police will not have the control over them which is desirable.

"In connection with this I wish to say that the Chief of Police believes that it is only by licensing these machines that his department can properly control them and prevent their use as gambling machines.

"The Federal Government already collects a license fee of ten dollars ($10.00) per year against these machines and I see no reason why the City of Cambridge should not receive an income from this source. It is estimated that there are from 300 to 500 of these machines in the City at the present time."

TERRE HAUTE, IND.

L. L. Anderson of Automatic Distributing Co., 1265 Lafayette Ave., Terre Haute, Ind., writes to inform The Cash Box that the music machines men in this city are now faced with a new City Ordinance in which the City Council is attempting to obtain a license fee of $50 per year from every phono operated within this city.

Anderson asks for any and all coinmen who may have any data as to cases of this kind in which they may have been engaged and which they have defeated in their own territories, as either unconstitutional or on the basis that this would be a confiscatory tax, please rush all such data on to him at the above address by airmail immediately.

S/Sgt. Milt Cohen (of Ohio Specialty Co., Cincinnati, O.) sends along this cartoon which, he reports, kept him pretty well occupied while he had a few minutes rest in one of the nearby rest spots for the armed forces, somewhere in Italy. Milt labels this cartoon, "If it were only this easy." He also writes, "It's one helluva lot easier to get locations than Nazis, believe me."

GUESSES WRONG ON WAR'S END

In the March 14, 1944 issue, The Cash Box offered $100.00 in cash to the coinman who would guess the correct date on which the European war would officially end.

The large number of entries which were received have been carefully filed by The Cash Box so that the correct guesser will be awarded this $100 along with all honors due him for his guessing ability.

Now that the invasion is on and the European war's end draws nearer each day, The Cash Box searched thru these entries and found one which had already been eliminated and three others that are bearing down close to the end of their guess-dates.

Sid Stewart of Stewart Novelty Sales Co., Colorado Springs, Colo., believed that the European war would officially end at 10 A.M., May 23, 1944. His guess is eliminated.

Fred C. McClellan of General Products Company, Sacramento, Calif., believes that Hitler will yell quits at 3:45 P.M. on June 23, 1944. Fred's guess hasn't much time left to go, but we sure do hope he's right.

H. A. Presher of San Diego Amusement Co., San Diego, Calif., believes that the Nazis will have had enough of a beating on July 10, 1944 at exactly 7 A.M. If Fred doesn't win our next hope is that Mr. Presher will take the $100. But from all present indications looks like this one won't come in either.

Frank W. Duncovich of Columbia Novelty Co., Amsterdam, N. Y., claims that the European struggle will be all over at 11:30 A.M., July 22, 1944. This is the last of the summer guesses on file, and we sure do hope it will be the last summer for Hitler, too.

FEATURING THE PLEDGE

Many coinmen who have already received certification of the pledge which they signed to be more specific about the condition of machines and merchandise they sell on their premises, or for shipment, and to so crate shipments that damage will be minimized or even eliminated, have written to us thanking us for this certificate which, they report, they have framed and hung in a prominent place in their showrooms.

Some of these men stated they should like for all the trade to know that they signed this pledge and especially that they intend to live up to it. They suggested that we advise the trade in all of their advertisements that this pledge is now part of their regular sales policy.

To these men we can only suggest that they place in all of their advertisements, as did Harry Jacobs of United Coin Machine Co., Milwaukee, Wisc., in his half-page ad in the June 20 (Second Anniversary) issue, that they have signed the pledge. Harry used a four word headline reading, "We signed the pledge."

There is no doubt that all subscribers to The Cash Box will understand then that such firms desire to give the finest service as well as the best shipping and also intend to be absolutely specific regarding the equipment they offer for sale.

MILWAUKEE STATIC

The free play pinball situation in Milwaukee remains static. Coinmen here are not making any further moves. They have pulled in almost all pins and only a few remain on location. These latter have no free play units, nor F.P. coils in them. They remain on location in the hope that the present D.A. will pick them up so that Milwaukee coinmen can start a new case. It also seems that with elections very near that present political situation is such no pick-up action can be anticipated.

In the meantime the situation is anything but pleasant. The D.A.'s office is planning to charge conspiracy. At the same time the press continues its publicity campaign without let-up.

What affects most of the nation's coinmen who know how Milwaukee's pinball men worked, is the fact that the men in this city, among all others, carried on in clean and upstanding fashion.

It is the hope of all the trade that Milwaukee's coinmen will come out ahead in this fight to prove that novelty games without free play are not affected by the adverse State Supreme Court decision. It is also hoped by many that all the trade will back up these men with whatever help they will need.

WPB ISSUES DRASTIC ORDER FOR CONTROL OF LUMBER

The War Production Board issued an important order, which becomes effective on August 1st that is so strict that the distribution of lumber to some non-military consumers will be slashed as much as 50%. Brought under the limitations of this new order, the WPB said, are "householders and large industrial consumers who use lumber in the manufacture of shipping boxes and crates...."Government lumber authorities warned that the final determination of lumber available rests with the progress of the invasion. "If we can move fast enough" claim. Government officials "and the enemy doesn't have time for complete demolition, then the use of lumber in Europe will be smaller. In addition packing and crating requirements are increasing as the number of men overseas increase". This is important to shippers of coin machines as well as rebuilders of games.

THE CONFIDENTIAL PRICE LISTS

AN EXCLUSIVE MERCHANDISING SERVICE FOR THE COIN MACHINES INDUSTRY ISSUED EVERY OTHER WEEK BY: THE CASH BOX, 381 FOURTH AVENUE, NEW YORK 16, N. Y.

FOREWORD

Many times, wide differences appear in the high and low prices of certain equipment. Like any true reporter The Confidential Price Lists can only feature the market prices as they are quoted. The Confidential Price Lists act exactly the same as the market quotation board at the Stock Exchange—posting the prices exactly as they are quoted for the past two weeks, regardless of how much they may seem to be out of line. Some machine prices do not change for months. The Confidential Price Lists, rather than show no price, retain the last known quotations for such equipment so that the subscriber at least has the last known quoted prices as a basis to work with. Prices continue to be very widely divergent these days. Someone on the West Coast may feel a certain machine worth $150.00 whereas someone on the East Coast may think it worth but $75.00. Of course, condition, serial, appearance, demand, territory, quantity, etc., must all be taken into consideration. The Confidential Price Lists report each quotation exactly as it is made and depend on the subscriber to make average price adjustment to fit the peculiarities of his own territory.

METHOD

The Confidential Price Lists are to be read as follows: First price listed is lowest price for the week; Second price listed is highest price for the two week period: Where only one price appears this should be considered lowest price.

CODE

CHECK THIS CODE CAREFULLY. BECOME ACQUAINTED WITH EACH ONE OF THE CODE NUMBERS AND WHAT THEY SIGNIFY. THESE CODE NUMBERS APPEAR IN FRONT OF THE NAME OF EACH MACHINE.

1. MEANS PRICE WENT UP.
2. MEANS PRICE WENT DOWN.
3. MEANS MACHINE JUST ADDED TO LIST.
4. MEANS PRICES WENT UP AND DOWN DURING THE PAST TWO WEEKS
5. MEANS PRICES REMAINED SAME AS IN LAST PRICE LISTS.
6. MEANS NO PRICES QUOTED FOR PAST FOUR WEEKS
7. MEANS NO PRICES QUOTED FOR PAST SIX WEEKS
8. MEANS NO PRICES QUOTED FOR PAST EIGHT WEEKS OR LONGER

IMPORTANT

Machines underlined mean these were most active in trading these past two weeks.

NOTICE! March, 1942. Market Prices for Wholesalers as per GMPR of OPA appeared in September 7, 1943 issue. Reprints are available.
